10/6/10

Hello, I am writing in regards concerning any position that is currently available.

I have over 8 years experience in upper management in the chemical industry and I am well versed on many EPA regulations, MSDS labels, and their impact on the environment. I have also obtained years of laboratory experience while in college obtaining my biology degree.

I am a very dependable, hard working individual who truly believes in searching for a career, not just a job. I consider myself a prompt learner and I am always eager to learn everything so I can better perform my duties.

I am looking forward to relocating back around the Pittsburgh area in the upcoming months so please review my resume and I look forward to hearing from you soon. Also I have made my current employer aware of my future plans, so please feel free to contact them for a referral. Thank you for your time and consideration.

Sincerely,

Neil Patrick Shannon
